It is our pleasure to invite you to participate in the 11th International Work-shop on Service Orientation in Holonic and Multi-Agent Manufacturing - SOHOMA'21, organized by Arts et Métiers Institute of Technology of Cluny (<https://artsetmetiers.fr/campus/cluny>) in collaboration with University Politehnica of Bucharest (the CIMR Research Centre in Computer Integrated Manufacturing and Robotics), Polytechnic University Hauts-de-France (the LAMIH Laboratory of Industrial and Human Automation Control, Mechanical Engineering and Computer Science) and Polytechnic Institute of Bragança (the CeDRI Research Centre in Digitalization and Intelligent Robotics). The SOHOMA'21 workshop has the scientific support from the IEEE-IES Technical Committee on Industrial Agents, from the GdR-MACS of the CNRS (<https://gdr-macs.cnrs.fr/>) and from the General Association of Engineers in Romania AGIR.

The main objective of SOHOMA Workshops is to foster innovation in smart and sustainable manufacturing and logistics systems and in this context to promote concepts, methods and solutions for the digital transformation of manufacturing through service orientation and agent-based control with distributed intelligence. The theme of SOHOMA 2021 Workshop is **Convergence of factory asset and process lifecycle with product lifecycles in Cyber-Physical System - based production**
